

VIGIL POLICY

PREFACE - OBJECTIVE

Cipla has always believed in upholding professional integrity and ethical behavior in the conduct of its business. Cipla has a Code of Conduct that reflects its belief and serves as a reference framework of conduct expected from everyone in Cipla.

To uphold and promote these standards, Cipla has formulated this Vigil Policy which serves as a mechanism for its directors and employees to report genuine concerns about unethical behavior, actual or suspected fraud or violation of the Code of Conduct without fear of reprisal, and hence to help ensure Cipla continues to uphold its high standards.

SCOPE

This Vigil Policy provides a secure framework to all the directors and employees of Cipla to report genuine concerns about unethical behavior, actual or suspected fraud or violation of the Code of Conduct by providing for adequate safeguards against victimization of the person making such report. This Vigil Policy also provides for direct access to the Chairman of the Audit Committee in appropriate and exceptional cases.

This Vigil Policy is in addition to the existing reporting processes within Cipla. Matters related to interpersonal issues, service conditions, organizational policies etc. should be resolved using the existing reporting process and not through the use of this Vigil Policy.

For example, issues related to compensation like quantum of increments, bonus payouts, performance appraisal, tax deducted at source, inappropriate facility management or administrative services, information technology related issues etc. should be resolved using the existing reporting mechanisms.
