Professional Skill Development

1 - 4

BSc at Baddi University

The focus of our unique transformational programme in Baddi (Himachal Pradesh) is to provide professional education along with job-linked skills to capable youth from financially challenged backgrounds. The programme has been running successfully for four years. Students get an opportunity to pursue a four-year Bachelor of Science (Pharmacy) degree at Baddi University and undergo on-the-job training.

20+ students from the 1st batch have all been employed while another **40** students are undergoing their studies

Job-linked short term training

We have partnered with the Skill & Entrepreneurship Development Institute (SEDI) in Baddi and the ITI Sikkim to provide opportunities for youth to learn technical and functional skills by trained professionals in areas such as carpentry, electrical, sewing, beautician course, etc.

200+ youth trained in Baddi. **39+** youth from the first batch in Sikkim successfully completed industrial training in 2018-19

Ambuja Manovikas Kendra

The Skill Development & Rehabilitation Centre, which we support together with Ambuja Cement Foundation, imparts relevant vocational skills in areas such as bakery, pottery and jewellery-making to persons with disabilities (PwD). In addition, we also create awareness and job readiness among PwDs to enable them to gain employment.

18+ trainees successfully completed their training in 2018-19

Project Eyeway

In line with the Accessible India Campaign, we initiated Project Eyeway in 2017 to provide a onestop solution for all resources and information for visually impaired individuals.

This helpdesk in Mumbai is part of the Eyeway Network and provides **over 2500 consultations** to visually impaired individuals every year.
