

Ref. No-CIPLA/EHS-ENV/KKB-II/12/2022

30.11.2022

Deputy Director General of Forests (Central), West Central Zone, Regional Office, New Secretariate Building, Opp. VCA Ground, Civil Lines, Nagpur-440 001.

Subject: Half Yearly Environment Clearance Compliance Report

Ref. No: Environment clearance No. J-11011/368/2006-IAII (I) dated 31st July 2007.

Respected Sir,

With reference to above subject, we are hereby submitting the six-monthly Environment clearance compliance report for the period of June-2022 to Nov -2022.

- 1.Point wise compliance to Environment clearance No. J-11011/368/2006-IAII (I) dated 31st July 2007as Annexure -1.
- 2. Data sheet attached as Annexure-2.

This is for your information.

Kindly acknowledge the receipt of the same.

Thanking You,

Your's faithfully,

For Cipla Ltd.

Authorized Signatory

Encl: As Above.

Cipla Ltd.

(Export Oriented Unit), D-27, MIDC Industrial Area, Kurkumbh, Dist. Pune - 413 802. P +91 2117 230600 F +91 2117 235232

Annexure Summary

Sr. No	Annexure No.	Description	Page No
1	Annexure-1	EC conditions & Compliance	1-6
2	Annexure-2	Data Sheet	7-9
3	Annexure-I	Air monitoring report	10-17
4	Annexure-II	Stack Emission & Scrubber Emission Report	18-24
5	Annexure-III	E1 Generation and Treatment (flow diagram)	25
6	Annexure-IV	CHWTSDF (MEPL) Membership Certificate	26
7	Annexure-V	Green Belt & Tree Plantation	27
8	Annexure-VI	Environment Control and adequate funds Details	28
9	Annexure-VII	Noise Level Monitoring Report & DG Insertion loss Reports	29-33
10	Annexure-VIII	Environmental Management Cell	34
11	Annexure-IX	Public Notice	35
12	Annexure-X	Consent to Operate (CTO)	36-45

Compliance of Specific Conditions by MOEF NO. J-11011/368/2006-IAII (I) Dated -31/07/2007

Sr. No.	CONDITION	COMPLIANCE	
1	Benzene shall not be used as solvent. Use of toxic solvents like Methylene chloride (M.C) etc. shall be minimized to the extent possible	We do not use Benzene as solvent, we recover the solvent wherever possible; two stage condensers have been provided for recovery on the reactors. It will be always our efforts to reduce the consumption of solvents like Methylene Chloride.	
2	Regular monitoring of all relevant parameters including HBr, HCl, NH3, VOC, CO, and HCs at various probable location in the ambient air, work zone and final vents shall be carried out and result submitted to the ministry	We are conducting monitoring through third party. (By MoEF Approved Lab) and reports are attached as Annexure I	
3	Fugitive emission of all relevant parameter in work zone area, product and raw material storage area and ambient air shall be carried out as per CPCB Guideline. The emission shall conform to the limits imposed by the SPCB/CPCB.	We are conducting monitoring through third party. (By MoEF Approved Lab) Ref. Annexure I	
4	The unit shall explore the possibility of sending the high calorific spent residue to the cement plant	Possibility explored and disposal as per CTO (Consent To Operate) Condition.	
5	Natural gas shall be used as fuel in the steam boiler and incinerator.	Natural gas will be used for boiler when available in (KKB site) Kurkumbh MIDC area. We are not use Incinerator.	
6	The bulk materials shall be stored in separate solvent tank farms and in MS/SS tanks.	Under ground storage area is developed as per CCOE norms.	
7	The gaseous emissions (SO2, NOX, VOC, HC, HBR, NH3, CO and HCL) along with SPM, RSPM forms various process units shall conform to the standards prescribed by the concerned authorities from time to time. At no time, the emission levels shall go beyond the stipulated standards. In the event of failure of pollution control systems adopted by the unit, the respective unit shall not be restarted until the control measures are rectified to achieve the desired efficiency.	We are conducting monitoring through third party. (By Moef Approved Lab) Reports are attached as . Annexure II	
8	Regular monitoring of all relevant parameters in the ambient air shall be carried out. The location of AAQ monitoring stations shall be set up in consultation with the SPCB and at least one station shall be put in the downwind direction as well as where maximum ground level concentration is anticipated.	We are Starting consultation as per MPCB and through third party. (By MoEF Approved Lab) and reports Ref. Annexure I	
9	The stack with boilers and incinerator shall be of 30 M height	Boiler stack height is 30 mtr. and D G sets stack height is	

	and DG sets stack will be of h+ 7.5 M height.	30 mtr. Analysis reports Ref. Annexure II	
10	Dedicated scrubber and stacks of appropriate height as per the CPCB guidelines shall be provided to control the emission form various vents. The scrubber water shall be sent to ETP for further treatment.	Dedicated scrubbers are provided and connected to process vents. Scrubber water tank drain is connected to ETP. Ref Annexure II	
11	The solvent recovery shall be further up to 98%. Closed handling systems for chemicals and solvents shall be provided. Magnetic seals shall be provided for pumps/agitators for reactor for reduction of fugitive emissions. Chilled brine-based condensers shall be used to prevent VOC emissions. Solvent trap shall be installed wherever necessary.	Closed system for solvent handling is provided with auto dispensing system. Mechanical seal is provided for the Reactors and Pumps. Chilled water and Chilled brine condensers are provided wherever applicable.	
12	All venting equipment shall have vapor recovery system. All the pump and other equipment's where there is a likelihood of HC leakages shall be provided with the Leak Detection and Repair (LDAR) system and LEL indicators and Hydrocarbon's detectors. Provision for immediate isolation of such equipment, in case of leakage shall also be made. The company shall provide a well-defined LDAR programme for quantification and control of fugitive emission. The detectors sensitivity will be in ppm levels.	We have provided the HC detector & Fire Alarm system for emergency communication	
13	All The storage tank will be under negative pressure to avoid any leakages. Breathers, N2 blanketing, and condensers will be provided for all the storage tanks.	Breathers and Flame arresters are provided for all storage tanks.	
14	Spent solvents shall be recovered as far as possible and recovery shall not be less than 98 %. Solvent vapors emitted during purification process from purification tanks, as fugitive emission shall be reduced as far as possible. All venting equipment shall have vapor recovery system.	This is being followed Vent condensers with chilled water /brine provided for the reactors	
15	Industry shall switch over to aqueous based coating film in place of use of Methylene Chloride in coating operation and to non-halogenated solvents in place of halogenated solvents in a phased manner.	We are currently bulk drug manufacturer & we do not carry out any coating activity by using Methylene Chloride. This condition is Not Applicable to our activity.	
16	No ground water shall be used for project.	Water supplied by MIDC is used.	

17	The effluent generation shall not be exceeded 355 m3/day. The wastewater generated from plant will be segregated. The low COD low TDS stream will be treated through Primary treatment followed by anaerobic lagoon and activated sludge followed by tertiary treatment as sand and activated charcoal filters followed by Reverse osmosis. The high TDS and low COD stream will be taken to liquid cum solid waste MEE system and high organic (high COD) stream will be incinerated. The treated effluent shall be recycled for use.	The effluent generation will not exceed 355 m3/day. Segregation of effluent streams is done at source of generation and The treated water used for utility. We are implementing this project in two phases of effluent 150 m3/day each. ETP Details attached as Annexure III
18	About 250 MT/y. of Plastic, Glass, Ferrous and other scraps will generate from the project which will be sold off. Used / spent oil, spent solvent spent catalyst / spent carbon, Date expired, discarded and off-specification drugs /medicines, spent mother liquor. spent organic solvent, discarded containers / barrels / liners / used for hazardous wastes / chemicals, chemical sludge, oil and grease skimming residue form ETP, sludge from wet scrubbers, Ash from incineration of hazardous waste and flue gas cleaning residues will be the hazardous waste generated from the project. These shall be either incinerated or sold out to authorized reprocesses	Plastic, Glass, Ferrous and other scraps, discarded containers / barrels / liners has sent to authorized recycler. Used / spent oil, spent solvent, spent organic solvent has sent to authorized recycler. spent carbon, Date expired, discarded and off-specification drugs /medicines, chemicals, chemical sludge form ETP, sludge from wet scrubbers, sent to MEPL
19	The unit shall install own incinerator for incineration of Hazardous waste or send to MEPL CHWTSDF Pune. The incinerator shall meet the CPCB standard and guidelines Emission from the incinerator shall be with in the prescribed norms for the incinerators. Monitoring protocol as prescribed in these standards shall be followed.	Membership certificate of MEPL enclosed as Annexure IV
20	5.5 hector of the area shall be developed as green belt as per the CPCB guidelines.	Total Green belt area developed 5.84 Hectares as per CPCB guidelines, enclosed as Annexure V
21	The project authorities shall earmark separate funds of Rs 4.00 Crores for Environment Control and adequate funds every year as O&M cost of pollution control system and to implement the conditions stipulated by the Ministry of Environment and Forests as well as the State Government along with the implementation schedule for all the conditions stipulated herein. The funds so provided shall not be diverted for any other purpose	Set-up full-fledged ETP (Effluent treatment plant, ZLD), Cost details enclosed as Annexure VI

Compliance of general conditions by MOEF

Sr. No.	CONDITION	COMPLIANCE
1	The project authorities shall strictly adhere to the stipulations made by the State Pollution Control Board.	Being followed
2	No further expansion or modification in the plant shall be carried out without prior approval of the Ministry of Environment and Forests. In case of deviations or alterations in the project proposal from those submitted to this Ministry for clearance, a fresh reference shall be made to the Ministry to assess the adequacy of condition imposed and to add additional environmental protection measures required. If any.	Being followed
3	At no time, the emission shall exceed the prescribed limits. In the event of failure of any pollution control system adopted by the unit, the unit shall be immediately put out of operation and shall not be restarted until the desired efficiency has been achieved.	Being followed
4	The overall noise levels in and around the plant area shall be kept well within the standards by providing noise control measures including acoustic hoods, silencer, enclosures etc. on all sources of noise generation. The ambient noise levels shall conform to the standards prescribed under Environment (protection) Act, 1986 Rules 1989 viz. 75 d B A (daytime) and	Being followed. We have provided acoustic hood for Air blower & Diesel Generator sets. Annexure VII
-	70 d B A (nighttime).	
5.	The project authorities shall strictly comply with the provisions made in Manufacture, Storage, and Import of Hazardous Chemicals Rules, 1989 as amended in 2000 for handling of hazardous chemicals. Necessary Approvals from Chief Controller of Explosives must be obtained before commissioning of the expansion project. Requisite On-site and Off-site Disaster Management Plans will be prepared and implemented. Regular mock	Being followed
	drills shall be carried out for both On-site and Off-Site plans. Safer modes of transportation of Hazardous Chemicals than the transportation by road shall be explored with time. Transportation of Hazardous Chemicals shall be as per the rules under the MVA, 1989.	
6	The company shall undertake following Waste Minimization measures. Metering and control of quantities of active ingredient to minimize the waste.	Raw materials are dispensed as per batch size
	Reuse of byproducts from the processes as raw materials or as raw material substitutes in other	Wherever possible we are doing.
	processes.	We have installed DCS for transfer of solvents

	h lies of automoted fillion to infinite the culti-	Mo have installed revision
	Use of automated filling to minimize the spillage.	We have installed powder transfer system for solid charging to the reactors
	Use of "Close Feed" system in batch reactors.	charging to the reactors
2	Venting equipment through vapor recovery system.	We have installed vent condensers for maximum recovery
	Use of high-pressure hoses for equipment cleaning to reduce wastewater generation	Being followed
7	Training shall be imparted to all the employees on safety and health aspects of chemicals handling. Pre-employment and routine periodical medical examination for all the employees on handling of chemicals shall be imparted.	We are conducting training on regular basis like chemical handling, Environmental awareness & Waste management & MSDS on monthly basis related to health & safety of employees.
8	Usage of PPEs by all the employees /workers shall be ensured.	followed
9	The company shall develop rainwater-harvesting structures to harvest the runoff water for recharge of ground water.	We are developed near about 5m 3 capacity rainwater collection pit.
10	Occupational health surveillance of the worker shall be done on a regular basis and records mentioned as per the Factories Act.	Being followed
11	The company shall strictly follow all the recommendation mentioned in the charter on Corporate Responsibility for Environmental Protection (CREP)	Being followed
12	All the recommendations made by the consultant in respect of environmental management and Risk mitigation measures relating to the project in the EIA/EMP Report shall be implemented.	Being followed
13	The company shall undertake all relevant measures. As indicated during the Public Hearing for improving the Socioeconomic conditions of the surrounding area. CSR activities will be undertaken by involving local villages and administration.	Being followed
14	The company shall undertake eco-developmental measures including community welfare measures in the project area for the overall improvement of the environment. The eco-development plan should be submitted to the SPCB within three months of the receipt of this letter for approval.	We are providing suitable jobs to local people and help is rendered for improvement of the environment.
15	A separate Environmental Management Cell equipped with full-fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.	We have provided full-fledged laboratory for ETP and Env. Mgt cell. At site Attached as Annexure VIII
16	The implementation of the project vis-à-vis environmental action plans shall be monitored by the concerned Regional Office of the Ministry/SPCB/CPCB. A six monthly compliance statues report shall be submitted to the monitoring agencies and shall be up loaded on the website of the project.	we are conducting monitoring on regular basis and six Monthly compliance report submitted to monitoring agenesis time to time.

17	The project proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with SPCB/Committee and may also be seen at Website of the Ministry at http://envfor.nic.in . This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and copy of the same shall be forwarded to the concerned Regional Office of the Ministry.	The information was advertised in local papers. Copy enclosed as Annexure- IX
18	The project authorities shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concern authorities and the date of start of the project.	The Phase I work is completed, CTO obtained for the same Ref. Annexure- X

Annexure-2 chage do 7-9)

Monitoring the Implementation of Environmental Safeguards Ministry of Environment & Forests Regional Office, Nagpur.

Monitoring Report PART – I DATA SHEET

No. Date: 30/11/2022

1. Project type: River -valley /Mining

Industry /Thermal /Nuclear/ other (specify)

Industry

2. Name of the project : Bulk Drug manufacturing plant

3. Clearance letter (s) /OM no and date : No. J -11011/368/2006 - IA -II (I)

Dated 31 st July 2007

4. Location

a) District (s)

b) State (s)

c) Latitude/Longitude

1.	Trade effluent	114.67	As per Schedule-I	Recycle 100% to achieve ZLD
2.	Domestic effluent	35	As per Schedule-I	Recycle 100% to achieve ZLD

5. Conditions under Air (P& CP) Act, 1981 for air emissions:

Sr No.	Stack No.	Description of stack / source	Number of Stack	Standards to be achieved
1	S-1	Boiler 1 & 2 (2 TPH each)	1	As per Schedule -II

Sr No.	Stack No.	Description of stack / source	Number of Stack	Standards to be achieved
2	S-2	Thermopack Boiler	1	As per Schedule -II
3	S-3 to S-5	Process Vents (3 Nos.)	3	As per Schedule -II
4	S-6	DG Set (1250 KVA)	1	As per Schedule -II

6. Non-Hazardous Wastes:

Sr No	Type of Waste	Quantity	UoM	Treatment	Disposal
1	Wooden Scrap, Glass Scrap, Plastic Scrap, Metal Scrap	125	MT/A	Sale	Sale to authorized party

7. Conditions under Hazardous & Other Wastes (M & T M) Rules 2016 for treatment and disposal of hazardous waste:

Sr No	Category No./ Type	Quantity	UoM	Treatment	Disposal
1	5.1 Used or spent oil	0.2	KL/M	Incineration/ Recycle	Sale to authorised party / CHWTSDF
2	28.1 Process Residue and wastes	30	МТ/М	Incineration/ Recycle	Sale to authorised party / CHWTSDF
3	28.2 Spent catalyst	0.030	MT/M	Landfill	CHWTSDF
4	28.3 Spent carbon	0.095	MT/M	Incineration	CHWTSDF
5.	28.4 Off specification products	0.5	MT/M	Incineration	CHWTSDF
6	28.5 Date-expired products	1.0	MT/M	Incineration	CHWTSDF
7	28.6 Spent organic solvents	378.5	KL/M	Incineration/ Recycle*	Sale to authorised party / CHWTSDF
8	33.1 Empty barrels /containers /liners contaminated with hazardous chemicals /wastes	200	No/M	Recycle*	Sale to authorised party
9	35.3 Chemical sludge from waste water treatment	15	MT/M	Landfill	CHWTSDF
10	37.1 Sludge from wet scrubbers	0.025	MT/M	Landfill	CHWTSDF
11	37.3 Concentration or evaporation residues	48	MT/M	Landfill	CHWTSDF

^{*} Sale to Authorized Party having permission under Rule 9 of H & OW

8. The Board reserves the right to review, amend, suspend, revoke this consent and the same shall be binding on the industry.

- 9. This consent should not be construed as exemption from obtaining necessary NOC/ permission from any other Government authorities.
- 10. Industry shall comply with the conditions stipulated in the Environment Clearance accorded vide F. No. J-11011/ 368/ 2006-IAII (I) dtd. 13/07/2007 and and ensure display/upload of six-monthly compliance monitoring report on their official website
- 11. Industry shall operate and maintain ETP and 100% recycle of treated effluent for secondary purposes like cooling tower make up, fire-fighting, plant washing etc. to achieve Zero liquid discharge.
- 12. PP shall ensure the connectivity of IP Camera with night vision at all the time to MPCB/CPCB Servers.
- 13. Industry should not manufacture any other product for which permission is not granted by the Board
- 14. This consent is issued pursuant to the decision of Minutes of the Meeting of Technical Committee for change in product mix Dated. 19/2/2022 & 22/2/2022. This Consent is issued based on self-assessment of Pollution Load submitted by you in Board's prescribed format and Certificate of "No Increase in pollution load" issued by empaneled auditors. If any violation and / or submission of misleading information are noticed, then the consent issued will stand automatically cancelled and you have to follow the procedure of EIA Notification, 2006 and Amendments thereof for obtaining Environmental Clearance
- 15. This consent is issued with overriding effect on earlier Consent to Operate granted by the Board vide no. Format 1.0/CAC/UAN No. 0000090091/CO2104000668 dated 12/4/2021
- 16. This consent is issued as per the minutes of Consent Appraisal Committee meeting held on 09/3/2022

1cd8abc4 39eb9b0a 95943d1f 3ac1c010 b274b7df ef60d0cb 9344b4bb 56ae6c22

Signed by: Ashok Shingare
Member Secretary

Received Consent fee of -

Sr.No	Amount(Rs.)	Transaction/DR.No.	Date	Transaction Type
1	421540.00	MPCB-DR-7893	29/09/2021	NEFT
2	25000.00	MPCB-DR-8365	18/10/2021	NEFT

Copy to:

- 1. Regional Officer, MPCB, Pune and Sub-Regional Officer, MPCB, Pune 1
- They are directed to ensure the compliance of the consent conditions.
- 2. Chief Accounts Officer, MPCB, Sion, Mumbai
- 3. CC-CAC Desk- for record & website updating purpose.

SCHEDULE-I

Terms & conditions for compliance of Water Pollution Control:

- 1. A] As per your application, you have segregated trade effluent into weak stream & strong stream and provided Effluent Treatment Plant (ETP) comprising of:
 - i) Strong COD/TDS stream of 15 CMD Treatment system comprising of Primary (Primary after stmt), Multi effect evaporator (3 stage) followed by ATFD. The MEE condensate is treated in weak stream ETP.
 - ii) Weak COD/TDS stream of 99.67 CMD Treatment system comprising of Primary (Collection tank, Neutralization tank, Equalization tank, Flash mixer, Primary Clarifier/Primary Settling Tank), Secondary (Activated sludge process), Tertiary (Pressure sand filter, Activated carbon filter), Advance treatment (Reverse osmosis, Multi Efflective Evaporator (stage), ATFD) with design capacity of 150 CMD.
 - B] The Applicant shall operate the effluent treatment plant (ETP) to treat the trade effluent and recycle the entire treated effluent into the process for various purposes such as for cooling, process & Scrubbing with metering system so as to achieve Zero Liquid Discharge. There shall be no discharge on land or outside factory premises.
 - C] The Industry shall ensure connectivity online monitoring system to the MPCB server including separate energy meter for pollution control system.
- 2. A] As per your application, primary treated sewage connected to Effluent Treatment Plant for further treatment & disposal.
 - B] Industry shall comply prescribed standards & disposal path as prescribed at Sr. No. 1B of schedule I.
- 3. The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification there of & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or an extension or addition thereto.
- 4. The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 5. The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974 and as amended, by installing water meters and other provisions as contained in the said act:

Sr. No.	Purpose for water consumed	Water consumption quantity (CMD)		
1.	Industrial Cooling, spraying in mine pits or boiler feed	70.00		
2.	Domestic purpose	45.00		
3.	Processing whereby water gets polluted & pollutants are easily biodegradable	129.57		
4.	Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic	20.00		

Sr. No.	Purpose for water consumed	Water consumption quantity (CMD)
5.	Gardening	35

6. The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time/ Environmental Clearance/ CREP guidelines.

SCHEDULE-II Terms & conditions for compliance of Air Pollution Control:

1. As per your application, you have provided the Air pollution control (APC) system and erected following stack (s) to observe the following fuel pattern:

Stack No.	Source	APC System provided/pr oposed	Stack Height(in mtr)	Type of Fuel	Sulphur Content(in %)	Pollutant	Standard
				PNG 3.4 SCM/Hr		NOx	50 Mg/Nm³
S-1	Boiler 1 & 2 (02 TPH each)	Stack	30.00	LSHS 5.12	1	ТРМ	150 Mg/Nm³
				KL/D		502	3.41 Kg/Day
5-2	Thermopack (2.0 Lakh	Stack	30.00	Diesel 7.5 KL/M	1.0	ТРМ	150 Mg/Nm³
	kl/hrs)			KL/IVI		502	5 Kg/Day
S-3	API-I Production Block Process Vent No. 201	Scrubber	10,00	12 _	-	Acid Mist	35 Mg/Nm³
5-4	API-I Production Block Process Vent No. 202	Scrubber	10.00	15.	- 19	Acid Mist	35 Mg/Nm³
S-5	API-I Production	Scrubber	10.00	K	(-	Acid Mist	35 Mg/Nm³
3-3	Block Process Vent No. 401	Scrubber	10.00	-		Dimethyl Sulphate	- 17
S-6	DG Set	Acoustic	7,50	LICE 30 KI A	1.0	TPM	150 Mg/Nm³
3-0		Enclosure	7.50	HSD 30 KL/M	1.0	SO2	20 Kg/Day

- 2. The Applicant shall provide Specific Air Pollution control equipments as per the conditions of EP Act, 1986 and rule made there under from time to time/ Environmental Clearance / CREP guidelines.
- 3. The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement/alteration well before its life come to an end or erection of new pollution control equipment.
- 4. The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).

- 5. Solvent Management shall be carried out as follows:
 - a. Reactors shall be connected to Water / Chilled Water /Brine Condenser system.
 - b. Reactors and solvent handling pumps shall have mechanical seals to prevent the leakages.
 - c. The condensers shall be provided with adequate Heat transfer area (HTA) and residence time so as to achieve more than 97% overall recovery
 - d. Solvents shall be stored in a separate space specified with all safety measures.
 - e. Proper earthing shall be provided in all the equipment's, wherever solvent handling is done.
 - f. Entire plant shall be flame proof. The solvent storage tanks shall be provided with breather valve to prevent losses.
 - g. All the solvent storage tanks shall be connected with vent condensers with Water / chilled water / Brine circulation.
 - h. Fugitive emissions shall be controlled at 99.95% with effective chillers.
 - i. Solvent transfer shall be through pump.
 - j. Metering and control of quantities of active ingredients to minimize wastes.
 - k. Use of automatic filling to minimize spillage.
 - I. Use of close feed system into batch reactors.
 - m. Venting equipment through vapour recovery system.

SCHEDULE-III Details of Bank Guarantees:

Sr. No	Consent (C2E/ C2O /C2R)	Amt of BG Imposed	Submission Period	Purpose of BG	Compliance Period	Validity Date
1	C2R	25 Lakh	15 Days	Towards O & M of pollution control system & compliance of consent to operate	30.04.2025	31.08.2025

^{**}Existing BG obtained for above purpose if any, may be extended for period of validity as above.

BG Forfeiture History

Srno.	Consent (C2E/C2O/C2R)	Amount of BG imposed	Submission Period	Purpose of BG	Amount of BG Forfeiture	BG
			NA			

BG Return details

Srno. Consent (C2E/C2O/C2R) BG imposed Purpose of BG	Amount of BG Returned
NA	

SCHEDULE-IV General Conditions:

- 1. The Energy source for lighting purpose shall preferably be LED based
- 2. The PP shall harvest rainwater from roof tops of the buildings and storm water drains to recharge the ground water and utilize the same for different industrial applications within the plant
- 3. Conditions for D.G. Set
 - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
 - b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
 - c) Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper sitting and control measures.
 - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
 - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
 - f) D.G. Set shall be operated only in case of power failure.
 - g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
 - h) The applicant shall comply with the notification of MoEFCC, India on Environment (Protection) second Amendment Rules vide GSR 371(E) dated 17.05.2002 and its amendments regarding noise limit for generator sets run with diesel.
- 4. The applicant shall maintain good housekeeping.
- 5. The non-hazardous solid waste arising in the factory premises, sweepings, etc. be disposed of scientifically so as not to cause any nuisance / pollution. The applicant shall take necessary permissions from civic authorities for disposal of solid waste.
- 6. The applicant shall not change or alter the quantity, quality, the rate of discharge, temperature or the mode of the effluent/emissions or hazardous wastes or control equipments provided for without previous written permission of the Board. The industry will not carry out any activity, for which this consent has not been granted/without prior consent of the Board.
- 7. The industry shall ensure that fugitive emissions from the activity are controlled so as to maintain clean and safe environment in and around the factory premises.
- 8. The industry shall submit quarterly statement in respect of industries obligation towards consent and pollution control compliance's duly supported with documentary evidences (format can downloaded from MPCB official site).
- 9. The industry shall submit official e-mail address and any change will be duly informed to the MPCB.
- 10. The industry shall achieve the National Ambient Air Quality standards prescribed vide Government of India, Notification No. 8-29016/20/90/PCI-L dated. 18.11.2009 as amended.
- 11. The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or an extension or addition thereto.

- 12. The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 13. The PP shall provide personal protection equipment as per norms of Factory Act
- 14. Industry should monitor effluent quality, stack emissions and ambient air quality monthly/quarterly.
- 15. Whenever due to any accident or other unforeseen act or even, such emissions occur or is apprehended to occur in excess of standards laid down, such information shall be forthwith Reported to Board, concerned Police Station, office of Directorate of Health Services, Department of Explosives, Inspectorate of Factories and Local Body. In case of failure of pollution control equipments, the production process connected to it shall be stopped.
- 16. The applicant shall provide an alternate electric power source sufficient to operate all pollution control facilities installed to maintain compliance with the terms and conditions of the consent. In the absence, the applicant shall stop, reduce or otherwise, control production to abide by terms and conditions of this consent.
- 17. The industry shall recycle/reprocess/reuse/recover Hazardous Waste as per the provision contain in the Hazardous and Other Wastes (M & TM) Rules 2016, which can be recycled /processed /reused /recovered and only waste which has to be incinerated shall go to incineration and waste which can be used for land filling and cannot be recycled/reprocessed etc. should go for that purpose, in order to reduce load on incineration and landfill site/environment.
- 18. An inspection book shall be opened and made available to the Board's officers during their visit to the applicant.
- 19. Industry shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act, 1986 and industry specific standard under EP Rules 1986 which are available on MPCB website (www.mpcb.gov.in).
- 20. Separate drainage system shall be provided for collection of trade and sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No effluent shall be admitted in the pipes/sewers downstream of the terminal manholes. No effluent shall find its way other than in designed and provided collection system.
- 21. Neither storm water nor discharge from other premises shall be allowed to mix with the effluents from the factory.
- 22. The industry should not cause any nuisance in surrounding area.
- 23. The industry shall take adequate measures for control of noise levels from its own sources within the premises so as to maintain ambient air quality standard in respect of noise to less than 75 dB (A) during day time and 70 dB (A) during night time. Day time is reckoned in between 6 a.m. and 10 p.m. and night time is reckoned between 10 p.m. and 6 a.m.
- 24. The industry shall create the Environmental Cell by appointing an Environmental Engineer, Chemist and Agriculture expert for looking after day to day activities related to Environment and irrigation field where treated effluent is used for irrigation.
- 25. The applicant shall provide ports in the chimney/(s) and facilities such as ladder, platform etc. for monitoring the air emissions and the same shall be open for inspection to/and for use of the Board's Staff. The chimney(s) vents attached to various sources of emission shall be designated by numbers such as S-1, S-2, etc. and these shall be painted/ displayed to facilitate identification.

- 26. The industry should comply with the Hazardous and Other Wastes (M & TM) Rules, 2016 and submit the Annual Returns as per Rule 6(5) & 20(2) of Hazardous and Other Wastes (M & TM) Rules, 2016 for the preceding year April to March in Form-IV by 30th June of every year.
- 27. The applicant shall install a separate meter showing the consumption of energy for operation of domestic and industrial effluent treatment plants and air pollution control system. A register showing consumption of chemicals used for treatment shall be maintained.
- 28. The applicant shall bring minimum 33% of the available open land under green coverage/ plantation. The applicant shall submit a yearly statement by 30th September every year on available open plot area, number of trees surviving as on 31st March of the year and number of trees planted by September end.
- 29. The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions.
- 30. The firm shall submit to this office, the 30th day of September every year, the Environment Statement Report for the financial year ending 31st March in the prescribed FORM-V as per the provisions of Rule 14 of the Environment (Protection) (second Amendment) Rules, 1992.
- 31. The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement/alteration well before its life come to an end or erection of new pollution control equipment.
- 32. The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).
- 33. The applicant shall provide facility for collection of environmental samples and samples of trade and sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.

This certificate is digitally & electronically signed.
